Subject: URGENT - FOIA Response Sanitization Required
Date: Sat, 15 Mar 2014 10:42:17 -0500
Classification: INTERNAL USE ONLY

[REDACTED],

We have a FOIA request for case file materials related to USA v. Swartz that needs immediate processing.

Document "Swartz_FOIA_Request.pdf" has been cleared for release but requires standard sanitization before transmission. Apply redaction protocol exactly as outlined in the attached "Sanitization.txt" document. Pay special attention to the sections marked for redaction and ensure all sensitive information is properly obscured.

When you are done, cut the corners, put it in the magic square, and send me the code so we can verify the sanitization before release.

The password for the files is: [REDACTED]

- Deputy Director [REDACTED]
[REDACTED]
